

Media Release

7th September 2009

APPROVED FOR RELEASE

USS to open NSW Sydney office

Key points:

- USS opens new NSW office at the MLC Centre, Martin Place
- This will allow the company to continue to build on its pipeline of development opportunities
- This will strengthen USS's ability to provide enhanced services to its project pipeline, not just in QLD but in NSW, VIC and SA
- USS will expand its expert team in both its Brisbane and Sydney office

About Underground Storage Solutions

Underground Storage Solutions Pty Ltd ("USS") is an Australian-owned mining company adding value to underground rock salt. Tellus is the parent of a group of companies involved in the mining, processing and sale of industrial and edible salts, fertilisers and minerals. Potential complementary businesses include storage in voids created by mining, warehouse storage and using the salt for renewable energy (solar/salt battery).
